Note: Within four days after completion of month, this sheet is to be submitted to Principal through Dean Academic

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

IQAC focuses on periodical reviews to achieve incremental improvement in various activities.

•Teaching learning process:-

Each department prepares its academic calendar in alignment with the central calendar and gets approval from the Dean of Academics and the Principal. The Academic Calendar includes the start and end dates of each semester stating various activities to be conducted, the internal evaluation schedule, and the tentative schedule of Practical Oral Examinations (POE). Each department has a Course Monitoring Committee (CMC) to take review the smooth conduction of the teaching-learning process. Necessary actions are taken such as conducting extra lectures, arranging technical workshops, and guest lectures to overcome the needs. Also, Continuous Internal Evaluation is conducted twice and marks are given as per the student's performance in the exam. The term work marks are evaluated based on the understanding of the practical experiments and quality of writing of the journal. This reviewing practice of the teaching-learning process has enriched academic performance and resulted in an increased count of university rankers.

•Learning outcomes

The institute follows the approach of OUTCOME BASED EDUCATION and in this regard, the CO attainment is calculated every semester using direct and indirect tools. The direct tools such as performance in CIEs, Practical, Quiz, ESE, and the indirect tool such as course exit survey are used to find the attainment level of CO. The review is taken to improve the attainment levels.
