

4.2.1. Library is automated using Integrated Library Management System (ILMS)

Vidya-Sagar, a online library software having version 4.2 is used to automate the library . The software is bar-code enabled and web based. Daily book circulation has been done by system. OPAC is available in the College Library. The OPAC module can be used to search the library's collection on the intranet. Acquisition, Cataloguing, Circulation, and Serial Control are just a few of the modules included in the software. The books issuance, return, and reserve options are all available in the circulation module. This module can generate a variety of reports, including loan borrower, item inventory status, circulation status summary, item transaction, and operator-by-operator transactions. This module generates library barcodes, making time-consuming library work easier, more effective, and more efficient Staff and students can subscribe to online e-Journals through the library.

Library at a glance
